### Greb May Be Signed To Meet Jack Dempsey

Managers of the Two Fighters May Agree on Eight-Round Bout in Philadelphia.

By John Pollock.

Jack Kearns, manager of champion Jack Dempsey, is due to arrive in town either to-day or to-morrow morning. He is coming here to try to complete arrangements for an eight-round go between Jack Dempsey and Harry Greb, the light heavyweight champion, to be fought at an open-air show to be staged by Jimmy Dougherty, the sporting man of Leiper, Pa., and also manager of Bobby Barrett, the Philadelphia lightweight who was recently stopped in six rounds in Philadelphia by Lew Tenger.

Efforts to meet Kearns and Greb, manager of Greb, for the purpose of clinching the match, Manager Engel told the writer yesterday that he is perfectly willing to sign up Greb for an eight-round bout with Dempsey, providing the terms are satisfactory to him. If the match is clinched it will be staged at the latter part of July or the early part of August at a baseball park in Philadelphia.

Kearns is anxious to have Dempsey battle Greb in an eight-round go and the chances are that there will be not much of a delay in signing the articles of agreement for the contest. Greb may also be signed up for a fight to-day for the middleweight championship title between him and champion Johnny Wilson, holder of the title.

Wilson and his manager, Marty Killea, are to meet matchmaker Flournoy with George Engel, manager of Greb at Madison Square Garden at 2 P. M. to-day to complete details for the contest. If Manager Killea does not demand too much money for Wilson the match may be consummated, to be fought at the Velodrome in the Bronx, for the middleweight championship title at a date which will be agreeable to the managers of both fighters.

There will be a ten-round fight tonight in Boston tonight which should attract several thousand spectators. The contest, middleweight of St. Paul, will go against Mickey Walker of Elizabeth, N. J., in the feature bout, an indoor boxing show to be staged by the officials of the Arena A. C. of that city. Both men are great favorites with the fans there, as they have been doing great fighting during the last six months. Malone is to receive \$1,000 for his win and while Walker will get a guarantee of \$5,000.

... the open-air Oakland A. A. Stadium, Jersey City, to-night. Benny Alger will meet Johnny Brumby, lightweight champion of New Jersey, in the feature battle of twelve rounds. In the semi-final Sid Bernard will meet Jackie Moore, the colored boxer, in a ten-round battle.

Frank Bagley, manager of Augie Ratner, the Harlem fighter, to-day clinched an important bout for Augie. He signed him to meet Lou Rogash, the Bridgeport middleweight, in a twelve-round bout in a feature at an open-air show to be staged at the latter part of July or the early part of August at a baseball park in Philadelphia.

These two popular middleweights of Bridgeport, Dave Rosenberg and Italian Joe Lang, will meet in the main event of twelve rounds at the Broadway Exhibition Club of Bridgeport to-night. Both men will try to score a knockout. In the semi-final eight rounds Billy Ryckoff will swap punches with Happy Gorman.

Harry Greb, who fights Tommy Loughran of "Philly" in an eight-round bout at the Philadelphia Baseball Park on July 10, has also been matched up by his manager, George Engel, to fight the "Hugoboss" Walker of Kansas City in a ten-round bout at Forbes field in Pittsburgh on the night of June 26.

On account of having cut his right eye while in training, Augie Ratner will be unable to meet Jack Stone of New York at the Prospect Sporting Club of Long Island to-night. The matchmaker will secure a substitute for Ratner.

Willie Herman, the Paterson lightweight, who knocked out Joe Webber of Brooklyn in the second round of the fight at the Prospect Sporting Club of Long Island on Saturday night, will take on Dick Conlin of Altoona, Pa., in a twelve-round bout before the "Peasants" A. C. of Paterson, N. J., to-night. It will be an exciting contest.

Tommy Robson of Malden, Mass., and Lou Rogash of Bridgeport were matched today to meet in the star bout of twelve rounds at the Commonwealth Sporting Club of Harlem on Sunday night. Sammy Good will go against Jimmy Kelly of Harlem in the other bout of twelve rounds.

Jimmy Hanton, the Dover lightweight, will meet Earl Frazer of California in the semi-final of eight rounds at the Philadelphia Exhibition Club at the Philadelphia Baseball Park on July 15. Hanton has been placed in the semi-final of the "Peasants" A. C. of Paterson, N. J., to-night. He will receive a guarantee of \$1,000. The weight is 135 pounds at 7 P. M.

### TENNIS STARS IN DELAWARE TOURNEY

WILMINGTON, Del., June 19.—Some of the country's leading tennis players are interested in the Delaware tournament, which opens to-day on the sixteen turf courts of the Wilmington Country Club. Included in the list are Philip Near of Leland Stanford University; William Sierand, Princeton; Louis A. De Cavenare and Dean Mathey, New York; Harry Guild, Boston; and Stanley W. Davidson, New York. Thayer and Sidney Thayer, Philadelphia.

Wallace F. Johnson of Philadelphia, men's champion, and Mrs. Marion Zinderstein Jessup, holder of the Delaware championship for women, will defend their titles. Miss Florence Bullitt of New York, who yesterday won the women's association of Pennsylvania and Eastern States, is among the challengers for Mrs. Jessup's singles crown.

### CANADIAN ARTILLERY CHIEF IS STRICKEN IN OTTAWA

OTTAWA, Ont., June 19.—Gen. G. W. B. Morrison, who commanded Canada's artillerymen in France, was stricken with paralysis to-day as he ran an elevator in an office building here. At 8 P. M. his condition was reported as serious.

## GOLD IN JUNGLES OF CONGO SOUGHT BY NEW YORK PARTY

Katonah Expedition Off in Quest of Glittering Pebbles War Veteran Discovered.

In search of a gold-carpeted spring, somewhere in the jungles of Belgian Congo, said to be about 600 miles from civilization, a party of eight men, organized at Katonah, N. Y., and made up largely of Katonah residents, sailed on the Majestic Saturday. The party will spend six months searching for a gold deposit which, its sponsors believe, will lead to a goldfield as rich as the Klondike.

The facts behind the expedition were guarded for many months and became known only after the Majestic sailed. A relative of one of the party told the following story to-day:

Julius J. Dolgos, a chemist, of Golden Bridge, near Katonah, was a member of mounted forces operating in or near the Belgian Congo during the World War. In 1917, while with a column of cavalry, he became lost. After wandering around in the dense jungles for some time, his horse stepped over the side of a steep ravine, horse and rider rolling to the bottom. Neither was seriously injured. After repacking his saddle and looking around, Dolgos decided to use the ravine as a best possible spring of water, which seemed to rise from a small basin and disappear a little further down, leaving a small basin of clear cold water which was constantly being refreshed.

Dolgos drank of the water. He noticed that the bottom of the basin seemed carpeted with bright yellow pebbles. He scooped some of these up and found them heavy and metallic.

Putting a handful in his pocket, he continued his wandering and finally struck the trail of the lost column, which he ultimately rejoined, though nearly starved from subsistence for several days on scant rations.

Considering the possibility that the pebbles might be valuable, Dolgos said nothing to his companions. He marked the place as best he could in his mind and, after his discharge, took his pebbles to a jeweler. The latter, after assaying them, paid him \$1,500 for the gold.

On his return to this country Dolgos told his story to Edward P. Barrett of Katonah, Supervisor for the Town of Bedford. Barrett investigated the story, believed it, and organized the expedition. He will accompany the expedition as far as Brussels, where he will seek concessions necessary for the development of any property which members of the expedition may believe valuable.

Other members of the party are A. C. Brower, Raymond Brower, Charles K. Cannon, and Robert Eisenman of Katonah; Dolgos and Albert Penaberton of New York; William H. Odell Jr. of South Norwalk; and Capt. Carlton de Montana of Brooklyn.

### STEVENS ALUMNI OPENS CLASS WEEK

Institute Will Graduate 119 Students Tomorrow.

Commencement week opened at Stevens Institute of Technology, Hoboken, Saturday, with the annual alumni day festivities. This year's class of 119 graduates will receive diplomas to-morrow morning in the fifth annual commencement.

Several hundred former students took possession of the college yesterday. In the morning they inspected the grounds and buildings. The annual meeting of the Alumni Association followed luncheon in the gymnasium.

The following Alumni Association officers were elected: President, Commander B. Franklin Hart, U. S. N., Hoboken, class of 1878; First Vice President, R. C. Post, New York, '98; Second Vice President, C. G. Atwater, New York, '91; Secretary, Prof. G. Freygang, New York, '87; Treasurer, Prof. Louis A. Martin, '97; Directors, W. W. Walker, Philadelphia, '06; Warren Davis, Jersey City, '97; H. H. Helms, Newark, '07; J. H. Pepper, New York, '09; alumni representative on Board of Trustees, F. E. Griswold, New York, '93; F. Francis Mueschenberg, '81, President of the Hotel Astor Company; and Robert Boettger, '88, President of the Vonkers Trust Company, acted as election judges.

### ELIZABETH STUDENT HAS HARVARD PRIZE

Scholarship Awards Announced as Commencement Week Begins.

CAMBRIDGE, Mass., June 19.—The festivities of Commencement Week at Harvard University got under way to-day with the annual Phi Beta Kappa exercises and the announcement of winners of prizes and academic distinction in Harvard College.

The Henry Russell Shaw traveling fellowship for 1922-23 was awarded to Wesley G. Brooker of Lindstrom, Minn. The Frederick Sheldon fellowship went to John Bridge of Simsbury, Conn. Eliot D. Hutchinson of Lowell, Wheeler G. Lovell of Cleveland, and Garrett Mattingly of Allegheny, Mich. The latter is a junior. Edward A. Weeks Jr. of Elizabeth, N. J., was announced as the winner of the "Thebes" Henry A. Phillips traveling fellowship.

### WOMAN FOUND DEAD IN HER BED, SKULL CRUSHED

BRIDGEPORT, Conn., June 19.—Mrs. Lillian Northrop was found dead in bed in her rooming house to-day, her skull having been crushed. The door was found to be closed and the police.

## THE EVENING WORLD RADIO PHONE SERVICE COLUMN.

By Capt. Robert Scofield Wood

D. F. C. M. Croix de Guerre with four palms, formerly Commander 16th Squadron, Royal Air Forces.

### A NEW BATTERY TESTING DEVICE.

Among the many new devices which have appeared on the market lately is a new type hydrometer which has no float to damage. It consists of the usual hydrometer syringe containing three colored balls each having a different specific gravity. It is the simplest device in the world to operate and understand and can be read in the dark.

When the hydrometer cylinder is filled with the electrolyte one of the balls will sink, indicating the condition of the battery, according to the following rule: If the white ball sinks the electrolyte is up to strength and has a specific gravity of 1.300. If the green ball sinks it shows a half charged condition of the battery with a specific gravity below 1.200, and if the red sinks the battery is completely discharged.

### STATIC ABSENT LAST THURSDAY NIGHT.

Many letters have been received commenting on the clarity of the atmosphere last Thursday night, with particular emphasis on the absolute absence of static.

This apparent absence of the summer bugaboo of all radio operators is singular in many respects. First, that it came right after a siege of very high interruption and, second, that the air seemed to regain all of its winter time elasticity despite the unfavorable weather conditions existing within a few hours.

The temperature, it was followed as we all know under apparently identical weather conditions by the usual summer display of atmospheric disruption of reception.

Regular amateur operators report having heard others of the amateur fraternity as far away as Georgia, Ohio and Maine, which is considered good under winter conditions.

The charts of the Weather Bureau seem to give little or nothing that can be used as a hypothesis for answering the appearance of such favorable radio conditions. The Weather Bureau reports show that the region along the Atlantic coast experienced a slight decrease in temperature, and the whole eastern part of the United States and Canada was the center of a region of high barometric pressure.

It is any of our readers have any idea that they think may explain this unprecedented return to perfect radio atmospheric conditions we would like to hear from them concerning it.

### BROAD ROUTES RUN BY RADIO.

The General Baking Company has equipped some of its delivery trucks with radio for answering the delivery of late orders are made in accordance with instructions transmitted by radio-phones from the general offices.

### RADIO REPAIR SHOP ON WAY TO ALASKA.

The S. S. Gold Star, the navy's first radio repair ship, has sailed from Hampton Roads for the Pacific Coast. The ship is equipped with a radio repair shop and will be used to repair the two radio compass stations in the Arctic which are maintained by the navy. These two stations, which are located at Cape Hitchcock and Sandstone Point, are frozen up for seven months of the year.

### RADIO FOG SIGNAL STATION.

The first radio fog signal station will in all probability be installed at the mouth of the Mississippi River before the end of the summer, E. S. Lempier, Chief Engineer of the Electric District Light House Service, in a recent report, has recommended the installation of several to aid ships during the season of heavy fog in the Gulf of Mexico.

### QUESTIONS AND ANSWERS.

John Bryant city—"What is the difference between a detector tube and an amplifying tube?" Answer—"In construction there is no difference. The detector tube is a soft one while the amplifying tube is a hard one. The detector tube is usually a gas content or one which is not highly evacuated. The hard tube is one that presents an almost perfect vacuum in the chamber and is used to detect more voltage and is more critical than the soft tube, whose life is much shorter under identical operating conditions.

Daniel Harris, Bronxville—"Can I use a 22-volt B battery on a V. T. Blummenthal?" Answer—"Yes. You can apply it to the filament, but the life of your tube will be immediately shortened. Twenty-two volts is five times as much as an ordinary small V. T. is designed to stand and will burn out a most immediately upon application. Unless you want to ruin the tube, don't try it."

Edward Stokes, Hoboken—"What is the best way to get the most out of a 30-foot lead-in a navy type loose coupler, a fixed condenser, a galena detector and a pair of 3,000 ohm phones?" Answer—"A variable condenser should be used as the secondary coil of the loose coupler will give you much sharper tuning. You will have to use a set of your set considerably."

William Johnson, Albany—"I recently bought a loop aerial for use during the summer with a detector and two-stop amplifier, and although only about thirty miles from Schenectady, I can get nothing. A friend of mine living at Mechanicville has the same kind of an outfit and gets everything. What is the trouble with my set?" Answer—"Living in Albany you are in the center of a region of more or less electrical interference and the detector is not sensitive enough to receive the vibrations which are picked up by the loop aerial. You will have to use a set of radio frequency if you want to continue loop operation. Your friend lives very close to the Schenectady station and is able to get it."

practically devoid of the regular interference of the big cities.

Stephen Cronin, Jersey City—"Will you please tell me the proper length of a lead-in to use with a variable condenser and a pair of 3,000 ohm phones?" Answer—"The aerial should be 100 feet long with a lead-in to the instruments as short as possible as can be conveniently arranged."

George I. Stahl, City—"Will you kindly explain why my tube wears out so much quicker than my 201s?" Answer—"The 201 is a soft tube, while the 201 is a hard tube. (See answer to first question.) The reason for the soft tube wearing out quicker is explained by scientists in the following manner: The electrons which flow from the excited filament to the plate in the gas or partially air exhausted interior of the tube meet with the molecules of air or gas and the impact of their meeting breaks the molecules, the electrons of which flow to the plate, while the positive matter is attracted to the filament. The bombardment of the filament by these positive particles of the disrupted gas molecules causes a short life of the soft tube. In the hard tube there is nothing to interfere with the flow of electrons from the filament and there is no positive matter to be attracted to the plate to break the filament to jar it to pieces."

### W W Z—New York 360 Metres

1.40 P. M., brief song recital by Edna Beatrice Bloom, soprano; J. Thurston Noe at the piano; (a) "An Evening Song," Gilbert; (b) "Pickaninny Sleep," Strickland; (c) "A Birthday," Woodman. 2.40 P. M., brief recital of June recordings for the Victrola. 3.40 P. M., brief song recital by Leota P. Squire, soprano; Thurston Noe at the piano; (a) "A Birthday," Woodman; (b) "In an Old-Fashioned Town," Squire; (c) "The Lilac Tree," Garlani. 4.40 P. M., children's hour, given by the W. W. Z. Club. 5.40 P. M., brief recital of June recordings for the Victrola. 6.40 P. M., W. W. Z. Health College, conducted by Mrs. Anna Hazleton Delavan, Dean of Radio Health, Physical Director of the American Red Cross; subject, "Habit and Life," brief musical program.

### W J Z—Newark 360 Metres

Features for the day: Agricultural reports at 12 M. and 6 P. M. Arlington official time at 11.55 to 1 P. M. and 10.55 to 11 P. M. Baseball scores from 1 P. M. to 7 P. M. Music every hour from 11 A. M. to 6 P. M. Shipping news at 2.05 P. M. and 6 P. M. Weather reports at 12 M., 1 P. M., 8 P. M. and 11 P. M.

6.00 P. M.—"Business and Industrial Conditions in the United States," as observed by the National Industrial Conference Board. 7.00 P. M.—"Stories from St. Nicholas Magazine." 7.30 P. M.—"Esperanto," a suggested international language by James Denison Sawyer.

7.45 P. M.—"The Romance of Silk," from the ocean to the Silk Road," by Mrs. Carolyn T. Radnor-Lewis of New York. 8 P. M.—"Concert by the 3rd Coast Defense Band of forty pieces, Lieut. Frank Deane, 2nd bandmaster. Soloists: Edna Joyce, soloist. Program: 1, "Suite Atlantic," 2, "Georgia," 3, "Edna Joyce, Swanson River Moon," 4, "Edna Joyce, Swanson River Moon," 5, "Edna Joyce, Swanson River Moon," 6, "Edna Joyce, Swanson River Moon," 7, "Edna
